

KUDOHZ

Product Requirements Document (PRD)

Version 1.0 (MVP)

PRODUCT OVERVIEW

Kudohz is an identity transformation platform that helps people become who they choose to be through intentional action, reflection, and memory capture.

The platform is designed around Identity Journeys rather than tasks, streaks, or productivity metrics.

The objective is to help users:

- Define who they want to become.
 - Understand why it matters.
 - Commit to a journey.
 - Capture meaningful memories.
 - Reflect on growth.
 - Build evidence of transformation.
-

PRODUCT GOALS

Primary Goal

Help users remain engaged in an Identity Journey for at least 30 days.

Secondary Goals

Help users:

- Stay focused on a small number of identities.
 - Maintain connection to their Why.
 - Build a meaningful Growth Archive.
 - Reflect consistently.
-

TARGET USERS

Primary Audience

Intentional self-improvers.

Examples:

- Writers
 - Designers
 - Students
 - Entrepreneurs
 - Creatives
 - Professionals
 - Fitness enthusiasts
-

MVP SUCCESS METRICS

North Star Metric

Active Identity Journeys after 30 days.

Supporting Metrics

- Memories captured per user.
 - Weekly reflections completed.
 - Goals created.
 - Identity journeys completed.
-

MVP FEATURE SET

Daily Actions

Memory Capture

Reflection

IDENTITY SYSTEM

Users can create between 3 and 5 active identities.

Examples:

- Writer
- Athlete
- Designer
- Reader
- Entrepreneur

Each identity contains:

- Why
- Timeline
- Goals
- Actions
- Memories

JOURNEY SYSTEM

Every identity is represented by a Journey.

Example:

Identity: Writer

Timeline: 180 Days

Goal: Publish first novella

Why: I want to tell stories that move people.

Journey Status

- Active
 - Completed
 - Extended
 - Retired
-

GOAL SYSTEM

Users can:

- Select goal templates
- Create custom goals
- Use AI to clarify goals

Examples:

Fitness

- Lose weight
- Gain muscle
- Improve endurance

Writing

- Publish article
 - Finish novel
 - Build writing habit
-

WHY SYSTEM

Every goal requires motivation capture.

Question 1

Why is this important?

Examples:

- Health
 - Confidence
 - Freedom
 - Creativity
 - Purpose
-

Question 2

What changes if you achieve this?

Free-text response.

Stored permanently.

Used throughout the product.

DAILY ACTIONS

Users create actions supporting their goal.

Examples:

Write 500 words.

Read 20 pages.

Exercise 30 minutes.

Meditate 10 minutes.

Actions can be:

- Daily
 - Weekly
 - Custom frequency
-

MEMORY SYSTEM

Core Feature

After completing an action, users may optionally save a memory.

Memory Types:

- Note
- Photo
- Voice Note
- Link
- Journal Entry

Prompt:

"What would you like to remember?"

Memories are attached to:

- Identity
 - Goal
 - Date
-

GROWTH ARCHIVE

The Growth Archive contains:

- Photos
- Notes
- Reflections
- Milestones

Purpose:

Allow users to see evidence of transformation.

WEEKLY REFLECTION

Occurs every 7 days.

Questions:

What went well?

What challenged you?

What did you learn?

What are you proud of?

MONTHLY REFLECTION

Generated summary.

Includes:

- Memory collage

- Journey highlights
- Reflections
- Milestones

Purpose:

Help users visualize growth.

PROGRESS SYSTEM

No XP.

No levels.

No streaks.

Progress is represented through Identity Growth.

Visual growth states:

Seed

↓

Sprout

↓

Young Growth

↓

Flourishing

↓

Mature

These are symbolic and tied to engagement with the journey.

AI ASSISTANT

Role:

Optional guide.

Primary Uses:

- Clarify goals
- Make goals specific
- Break broad goals into manageable outcomes

Examples:

User: "I want to get fit."

AI: "What does getting fit mean to you?"

- Lose weight
- Gain strength
- Improve endurance

AI is not required to use the product.

DASHBOARD

Purpose:

Provide a daily home for the user's journey.

Sections:

PRODUCT PRINCIPLE

If a feature helps users become who they choose to be, it belongs.

If it merely increases engagement without supporting transformation, it does not belong.
